

Report 1 – Cis 415

By: *Matt Almenshad*

Project 1 Report

I discussed implementation and design with multiple students such as tajo, emmalie, Andrew, rui, jenni, zero, jake lin, ian garret, roby, ...and many more.

However, aside from professor sventik's code, all the code I used was my own

Just before submission I ruined my files attempting to clean up warnings, so I am forced to turn in this messy uncompleted version.
